## SUMMARY

Java Full-Stack Developer with expertise in building web and desktop applications using Java, Spring Boot, Swing, MySQL, and modern frontend technologies. Skilled in designing scalable, responsive, and secure applications. Passionate about clean code, user-friendly design, and delivering business-driven solutions.

## SKILLS

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Frameworks & Tools:** Swing, Bootstrap, Git, GitHub
- **Database:** MySQL
- **Development Tools:** Vs Code, IntelliJ IDEA, Postman, Cursor AI, Android Studio
- **Other Skills:** Adobe Photoshop, Adobe Illustrator, MS Office (Word, Excel, PowerPoint)

## EDUCATION

- **Bachelors of Computer Application (BCA)**  
ABS Academy of Science Technology and Management, Durgapur  
2022 – 2025
- **12<sup>th</sup> Higher Secondary (WBBCHSE)**  
Nadiha High School (H.S.)  
2022
- **10<sup>th</sup> Secondary (WBBSE)**  
DPL Old Boys (H.S.)  
2020

## PROJECT

- ❖ **University Management System (UMS) – Java, Swing, MySQL**
  - Developed a desktop-based system enabling secure student, faculty, and admin portals.
  - Implemented role-based access control, ensuring data security for academic records.
  - Automated student results, profile management, and faculty operations, reducing manual workload by 40%.
  - Designed an intuitive Swing-based UI with MySQL integration for real-time database management.[🔗 Project Link](#)

## INTERESTS

- **Self-Directed Learning:** Continuously developing new skills through online courses and practical projects in emerging technologies and creative software.
- **Open-Source Contribution:** Exploring and contributing to community-driven projects while collaborating with global developers.

## CERTIFICATION

- **Core Java**  
Indian Institute of Social Reforms (2024) – [\[Certification link\]](#)
- **DCSC**  
Drop org (2023) – [\[Certification link\]](#)
